

Retro Softline Blind

The Retro Softline Blind is a perfect blend of function and aesthetics.

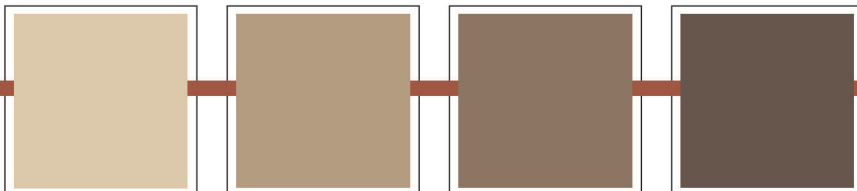

The product is comprised of the Blind Designs 50mm aluminium slat, fully colour co-ordinated to an elegantly crafted steel headrail and bottom rail.

Like all Blind Designs products the blind is crafted with quality in mind and provides an uncluttered decorative window covering.

The 50mm slat is particularly robust and far less likely to be damaged in daily use, making for a durable and decorative product.
